

# Mathias Ooi

408-207-6009 | [mathiasooi@ucsb.edu](mailto:mathiasooi@ucsb.edu) | [github.com/mathiasooi](https://github.com/mathiasooi)

## EDUCATION

---

### University of California, Santa Barbara

*Bachelor of Science in Computer Science + Mathematics*

Santa Barbara, CA

*Sep. 2023 – May 2026*

- UC Cumulative GPA: 3.75
- Relevant coursework: Object Oriented Design and Implementation, Probability and Statistics (ongoing)
- Planned coursework: Data Structures and Algorithms I & II (winter & spring), Algorithms Engineering (winter)

### University of California, Irvine

*Summer Session*

Irvine, CA

*Summer 2023*

- Relevant coursework: Linear Algebra (proof-based), Combinatorics, Multivariable Calculus, Probability I

## EXPERIENCE

---

### Gender Biases in Wikipedia

Cupertino, CA

*Oct. 2021 – Dec. 2021*

- Parsed and filtered Wikipedia XML dumps for infoboxes
- Analyzed for gender discrepancies (infoboxes for men include relatively more education/career data while females include more family/physical data)

### Connecting Futures Now

Aug. 2021 – Present

*Santa Clara, CA*

- Developed a highly customizable iOS math app in Swift for non-verbal autistic students
- Collaborated with parents and students to iterate on app design

### Competitive Programming

Aug. 2020 – Dec. 2022

- Reached USA Computing Olympiad Gold level
- Project Euler (top 1%), Advent of Code

## PROJECTS

---

### Scheme Interpreter | C++, Scheme

Jan. 2023 - Present

- Created an MIT Scheme interpreter in C++ with garbage collection and tail-call optimization

### Delaunay Triangulation | C++, Python, Matplotlib

Aug. 2023 - Present

- Implemented an incremental Delaunay triangulation program based on the Bowyer–Watson algorithm

### Ray Tracer | C++

May 2021

- Built a simple C++ ray tracer based on the *Ray Tracing in One Weekend* series

### Anti Othello Website | JavaScript, HTML, CSS

Oct. 2021

- Deployed an interactive website to play anti-othello against a bot
- Utilized a minimax algorithm with alpha-beta pruning to optimize bot moves

### Cubic Bézier Curve Library | Python

Aug 2021

- Created an open-source Python library for visualizing cubic bézier curves

## TECHNICAL SKILLS

---

**Languages:** C++, Python, C, SQL, Julia, Swift, JavaScript, HTML/CSS

**Frameworks:** React, Node.js

**Libraries:** Git, NumPy, Pandas, SciPy, Matplotlib, PyTorch, OpenCV, BeautifulSoup, RegEx
